

Speaking dog language!

Dogs can't talk to us using words but are very good at telling us how they are feeling using their body! Have a look at the pictures below and see what the dogs are saying:

I'm happy

I want to play

I'm not sure

I'm a bit worried

Can you put a tick next to the dogs that you could ask an adult if you could stroke?

Sleeping

Eating

Happy

Very excited

Can you draw on the back of this sheet the four dogs below and decide if they are safe to stroke or not?

A dog hiding behind the sofa, a dog sitting nicely, a dog asleep in their bed and a dog tied up outside a school.
